### Recycled Material Certified by GRS- What does this mean?

- The Global Recycled Standard verifies recycled content in products
- Traceability from recycled item to the final product
- Ethical and responsible production
- Chemical restrictions for any toxic inputs
- Environmentally friendly practices in production

### Who is GRS?

The Global Recycle Standard (GRS) is an international, voluntary, full product standard that sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices and chemical restrictions.

### Why should you care?

By purchasing more environmentally friendly products, consumers contribute to reducing pollution and the harmful impact production has on human health and our planet.

Confidence in knowing you are wearing a garment made from environmentally friendly material from sustainable production processes and socially responsible working conditions.
