

FLAME RESISTANT

INHERENT MESH VESTS

FR-VM2112Z

DUAL UNCOMPROMISED PROTECTION, ENHANCED PRODUCTIVITY.

This Flame Resistant Mesh Vest is engineered to provide superior safety and comfort in high-risk work environments. Combining Flame Resistant properties with High Visibility and practical features including mic tabs and a non-conductive Zipper closure, this vest is an essential addition to your team's PPE arsenal.

- **Enhanced Safety & Increased Visibility** – Provides crucial protection against electrical and fire hazards and ensures workers are seen in hazardous environments, reducing the risk of severe injuries.
- **Inherent Flame Resistant Protection** – Made with Modacrylic/Cotton Mesh that will maintain its protective properties even after frequent washing and wear, unlike treated fabrics that may lose their FR properties over time.
- **Comfortability Matters** – Constructed with high-quality, inherent Flame Resistant Modacrylic/Cotton Mesh, this vest offers excellent breathability for comfort in warm conditions while providing robust protection against arc flash and flash fire hazards.
- **Versatile Applications** – Suitable for Electrical workers, Utility workers, Road Construction and Maintenance, Oil & Gas Industry, Petrochemical Industry, this vest is a versatile solution for a wide range of jobs.

FR-VM2112Z S-5X

- 6.2 oz Flame Resistant Modacrylic/Cotton Mesh
- Meets ANSI/ISEA 107 Type R, Class 2
- Meets ASTM F1506
- Arc Rated ATPV = 5.1 cal/cm²
- NFPA 70E/CAT 1
- 2" Flame Resistant Industrial wash Reflective Tape - 50 Home/30 Industrial Washes
- Non-Conductive Zipper Closure
- 2 Mic Tabs
- Flame Resistant Thread & Binding
- 2 Pockets: 2 Inner Lower

2 MIC TABS

NON-CONDUCTIVE ZIPPER CLOSURE

CAT LOGO

2 LOWER INNER POCKETS
